

Thiel & Partner have been producing and distributing high quality drivers under the accuton® brand since 1994. Our drivers are made of stiff membrane materials such as Al²O³ ceramics, CVD-diamond and aluminium sandwich and are produced in Bexbach in Saarland, Germany. Management, development and distribution are coordinated in Pulheim near Cologne.

We strive to lead the global market in the highest quality dynamic loudspeaker drivers in both construction and sound. To this end, we apply stringent quality criteria and technological expertise in the development of our products.

We also provide our customers with extensive support in the design and development of high-quality loudspeakers for home and automotive use.

We are looking for an employee to join the team in our production base in Bexbach as soon as possible:

Assembly worker (f/m/d)

The following qualifications are required:

Personal:

- Very good manual skills for filigree work - „a steady hand“
- Patience and the ability to concentrate
- Good working knowledge of the German language

Responsibility:

- Manufacture of loudspeaker chassis
- Handling sensitive components

We offer you:

- A salary corresponding to the task with a success bonus
- Pleasant collegial environment
- Opportunities for career advancement

If you are interested in this position, we look forward to receiving your application via the application form on our website.

Alternatively, you can send your application with the usual documents to Dirk Vaehsen at **Human.Resources@thiel-partner.de**
