

Thiel & Partner have been producing and distributing high quality drivers under the accuton[®] brand since 1994. Our drivers are made of stiff membrane materials such as Al₂O₃ ceramics, CVD-diamond and aluminium sandwich and are produced in Bexbach in Saarland, Germany. Management, development and distribution are coordinated in Pulheim near Cologne, Germany.

We strive to lead the global market in the highest quality dynamic loudspeaker drivers in both construction and sound. To this end, we apply stringent quality criteria and technological expertise in the development of our products. We also provide our customers with extensive support in the design and development of high-quality loudspeakers for home and automotive use.

We are looking for an employee for the following position in our production base in 66450 Bexbach (Saarland) as soon as possible:

Production Engineer

The following qualifications are required to fill the advertised position:

Professional:

- a science or engineering degree
- ideally, work experience in a producing company
- basic knowledge in production planning and project management in a certified environment (ISO 9001)
- basic knowledge in loudspeaker technology and simulation
- thorough knowledge in all MS Office Programms
- basic knowledge in CAD – specifically Solidworks

Personal:

- excellent manual ability for delicate work – a „steady hand“
- a talent for organization and teamwork
- competence in leadership and motivation
- good english
- a willingness to learn in a continually developing market

We can offer you:

- an above average salary for this position and a merit-based bonus
- a company car – also for personal use
- Flexible working hours
- a pleasant team and working environment
- promotion opportunities

If you are interested in applying for the abovementioned position, please send your application with the usual documents, preferably via email, to the contact person listed below. We look forward to hearing from you.
